Portrait Sessions:

Location: Sessions can be at my home or yours, or at a neutral location of your choosing. If the location is outside of 20 miles from 44705 a \$0.20/mile charge will be added. My home: I have an indoor area suitable for baby's /small children and a vast outdoor garden for spring/summer shooting. I do have small pets if there are any allergy issues. (Roosevelt Ave NE, Canton OH 44705)

Type of Sessions: Photography sessions may include, but are not limited to, the following types of portraits: maternity pictures, newborn photos, baby pictures, children portraits, family photos, engagement photos, Holiday, marketing photography, and business head shots.

Props/Outfits: Between 2-4 different outfits and setups can be used depending on the number of children and their ages as well as the session length. I will supply a few props of my own but if you have ideas or things you'd like to use please don't be shy, bring them along or have them ready for the shoot.

Choosing a Time: If you have a small infant/ child choose a time that they tend to be in good spirits or sleepy - at eating time or just after is great. If you need to stop for a feeding this is ok as we will have small breaks for lighting adjustments and setting changes. A cranky baby doesn't make for good photos! If I can't get anything good in your session we can always reschedule.

What to Expect: Within a week, between 10 and 25 fully edited photos featuring full color, black & white, selective color and other design work will be presented to you in a private online proofing gallery or on a physical print out if you prefer. Your online proofing gallery can be shared with friends and family.

Stock Types:

130 lb Gloss - Glossy on one side and Semi gloss on the other. Great for true photos and solid or bright colored designs. Budget friendly & great for party invitations, photo thank you's, and postcards. (Not the flimsy photo paper found at your local kiosk).

***110lb 100% Recycled Matte** - Environmentally friendly stock that has a smooth matte finish on both sides. Great for all types of invitations/stationery. Still has a slight sheen so designs aren't muddled. Because it's a recycled stock there are slight & tiny imperfections that are only seen on lighter colored or white designs.

***Linen** - 80lb stock that has a slightly textured finish, like that of a linen table cloth, but at a much smaller scale (ask me to see a close up photo or sample). Great for adding a touch of elegance to your invitation/stationery. Both sides are Linen Textured.

***Magnets** - My magnets are solid, they do not ever come apart. These are not the type you see in craft stores where the paper is mounted to a magnet backing. The design is professionally printed onto the magnet surface, you can bend and fold them without them cracking. They are top notch and beautiful and will last a very long time.
